

Polyform® Purse Seine Floats

Proudly made by
The Originator of
Modern Plastic Buoys

POLYFORM® OF NORWAY

The BPB 6800 Bacell™ Purse seine Floats are manufactured from ethylene vinyl acetate (EVA) to our in-house developed raw material recipe. Advanced production technology guarantees floats of superior quality. The grommets are a part of the products from stage one in the production cycle and thus form an integrated part of the finished products. BACELL™ floats are light in weight, have very high tensile strength and do not absorb any water. The outstanding elasticity of the Bacell® material provides floats that have the highest resistance to shrinkage, permanent deformation and breakage.

Product information

Article number	BPB6800
Diameter	226 mm
Length	230 mm
Centre hole diameter	45 mm
Weight (nominal)	880 g
Buoyancy	6 900 g

Technical information

Material	EVA
Hardness surface, shore A	40
Hardness foam core, shore A	30
Compression strength @10% strain speed 10 mm/min	165 kPa
Recommended min temp.	-25°C
Recommended max temp.	40°C
Temp. not to be exceeded	50°C
Density (g/l.)	120

Polyform AS

Polyform AS is a world leading manufacturer of buoys fenders and floats, and the originator of the modern inflatable plastic buoy. The company is registered in Norway and situated in Ålesund at the north-western coast of Norway, and benefits from being located in one of the world's most innovative maritime environments.

The product range of Polyform AS consists of:

- Inflatable buoys and fenders made from soft Vinyl plastics.
- Purse Seine Floats, buoys and marina fenders made from BACELL closed cell foam.
- Hard-shell buoys and pontoon floats made from PE and filled with foam
